Career Objective

Computer Engineering student with a strong interest in Data Structures and Algorithms, problem-solving, and full-stack web development. Skilled in Java, JavaScript, React.js, Node.js, Express.js, and MongoDB, with practical experience in developing RESTful APIs and database-driven web applications. Passionate about building efficient, scalable software solutions and continuously improving technical skills.

Education

B.Tech in Computer Engineering *July 2026 – May 2029*

Pimpri Chinchwad college of Engineering and Research, Ravet **CGPA: 9.5 / 10**

Skills

- **Programming Languages:** Java, C, C++, JavaScript
- **DSA & CS Fundamentals:** Data Structures and Algorithms, OOP, DBMS, Operating Systems
- **Frontend Development:** HTML, CSS, JavaScript, React.js, Bootstrap, EJS
- **Backend Development:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL, SQL
- **Development Tools:** GitHub, Git, Postman, VS Code, Eclipse, Maven
- **Testing & Automation:** Selenium WebDriver, Web Application Testing, Test Case Design, STLC
- **Professional Skills:** Analytical Thinking, Problem-Solving, Debugging, Communication, Teamwork

Projects

StayNest (Real Time hotel booking system) (Link) *Ongoing*

Technologies: React, EJS, Node.js, MongoDB, Bootstrap, REST APIs, GitHub, Postman

- Developed a web-based hotel booking platform that allows users to explore, search, and book hotels and accommodation easily.
- Build a responsive frontend using HTML, CSS, JavaScript, Bootstrap, and EJS, integrated with a Node.js and Express.js backend and MongoDB database.
- Developed and integrated RESTful APIs for hotel listings, user authentication, bookings, reviews, and hotel management.
- Implemented features such as hotel search, location-based listings, price filtering, user reviews, and interactive maps to enhance the booking experience.
- Used GitHub for version control and managing project development, testing, and deployment.

FinTrack (Personal Expence Tracker) (Link) *Ongoing*

Technologies: React, Node.js, MongoDB, REST APIs, GitHub, Postman

- Developed a full-stack personal finance management application to help users track income, expenses, and monitor their financial activities.
- Implemented features for transaction management, income and expense categorization, balance tracking, and financial summaries.
- Built a responsive frontend using React.js and developed RESTful APIs using Node.js and Express.js, integrated with MongoDB for data storage.
- Integrated interactive dashboards and visual summaries to provide insights into spending patterns and improve financial management.
- Used GitHub for version control and Postman for API testing, debugging, and validation.

Training & Experience

Data Analytics Intern | ProAzure Software Solutions Pvt. Ltd. (*Certificate*) *Jun' 2025 – Aug' 2025*

Technologies: Python, MySQL, Power BI,

- Completed 3-month hands-on internship training in Data Analytics at ProAzure Software Solutions Pvt. Ltd.
- Gained practical experience in data cleaning, data preprocessing, exploratory data analysis (EDA), and data visualization.
- Worked with Python, Pandas, NumPy, and data visualization libraries to analyze datasets and extract meaningful insights.
- Performed data analysis to identify trends, patterns, and relationships, supporting data-driven decision-making.
- Developed practical skills in data handling, analytical problem-solving, and presenting insights through visualizations.

Certifications

- **Oracle Data Science Certification.** *(Certificate)*
- **Accenture Software Engineering Job Simulation – Forage.** *(Certificate)*
